

Engineering and Science Hall of Fame®

110 East Monument Ave., Dayton OH 45402

2026 ESHF Call for Nominations

The Engineering and Science Hall of Fame honors engineers and scientists who have made outstanding contributions to the establishment, development, advancement, or improvement of engineering and science for the benefit of humanity. The Engineering and Science Hall of Fame perpetuates the memory of inductees by recording their contributions, and promoting and encouraging a better appreciation of their work, particularly among young persons as they prepare for their careers.

Brief Guidelines for Content of your Nomination:

1. The major contribution of nominee must be at least five years ago to assess the long-term significance of the work.
2. Please include in your nomination the following information to aid the evaluation of the candidate in the areas of:
 - a. Geographical impact of their contribution: Is it local, regional, national, or international?
 - b. Depth of accomplishment: Is work a major contribution to a field?; or does it change the state-of the art in the field?
 - c. Did the accomplishment affect the lives of many people? Where? Does it still benefit humanity?
 - d. Was the accomplishment recognized by others?
 - e. Would facets of the work of your nominee inspire students?

The 2026 Induction Event will be Wednesday evening, November 11, 2026, at the Engineers Club of Dayton, Ohio. Lectures for students will occur the next morning, Thursday November 12, 2026, at 10 AM, also at the Engineers Club of Dayton.
